INTRODUCTION

Now a days the lifestyle of the people is different. People feel uncomfortable and time consuming for going crowded markets. The online shopping platform helps you to purchase goods and services online by mobile, or computers. Shoppers can visit web stores from the comfort of their house and shop as by sitting in front of the computer.

Online stores are usually available 24 hours a day. One of the most enticing factors about online shopping, particularly during holiday season is, it alleviates the need to wait in long lines or search from a store for a particular item. Consumers can get full information about the product with its reviews being passed by the existing users.

FORMULATION OF PROJECT

Objective

->The objectives of online shopping are pre-defined on which the whole system work to achieve them by managing the details of all customers, payments, bills, products, shopping, and so on.

- ☐ To shop while in the comfort of your own home, without having to step out of the door
- ☐ To be able to easily save money and compare prices from website to website
- ☐ Online resellers tend to sell at a lower price due to less overhead expenses

Conclusion

E-commerce still represents one of the business methods that take advantage if done the right way, even if the stock market and commodities fell, but E-Commerce still able to survive and receive high transaction.

E-Commerce has undeniably become an important part of our society. The successful companies of the future will be those that take E-Commerce seriously, dedicating sufficient resources to its development. E-Commerce is not an IT issue but a whole business undertaking. Companies that use it as a reason for completely re-designing their business processes are likely to reap the greatest benefits. Moreover, E-Commerce is a helpful technology that gives the consumer access to business and companies all over the world.

... Thank You ...
